

## Summary

Greg has over 10 years of field and office experience in surveying and construction inspection working on a variety of projects. His responsibilities include drafting, construction inspection and construction staking.

Greg brings experience with him to Pioneer Surveying and Engineering. This experience includes work on various projects for the Central Klickitat Conservation District. His experience and leadership make him a key team player. He is thoroughly familiar with the needs and protocol for pre-design surveys, to boundary work, through construction staking and inspection.
