

Summary

Ryan has over 7 years of field and office experience in surveying and drafting working on a variety of projects. His responsibilities include drafting, construction staking, topography surveys and boundary surveying.

Ryan brings experience with him to Pioneer Surveying and Engineering. His experience and leadership make him a key team player. He is thoroughly familiar with the needs and protocol for pre-design surveys, boundary work, construction staking and performing topographic surveys.

Relevant Project Experience

City of Goldendale  
2008 Eastside Waterline Project  
East central Neighborhood Street Improvement  
Construction staking
